

## LOCAL BAND INVADES MOSCOW TOP TEN!

12/15/92

Alien Farm, a San Francisco experimental combo, has broken into the Russian radio top ten with their latest compact disc, "Now Fix Me."

Two selections from that 1992 release (self-produced on Gallivant Media records) sat on the Radio Russia top playlists for October and November, alongside such slightly more well-known acts as New Order, Peter Gabriel, Morrissey, and Cabaret Voltaire. Alien Farm specializes in sound collages which some people might call ambient or industrial in nature.

"This would seem to show that the Russian music scene is really opening up, and that they're eager to hear all kinds of sounds," says Dan Hintz of Alien Farm. "We were pleased to learn we made the list."
